Cookies

When you access the iCare CLINIC software through a web page, we use a cookie called auth token to make our service more user-friendly, effective, and secure.

Token-based authentication is a protocol which allows users to verify their identity, and in return receive a unique access token. During the life of the token, users then access the application that the token has been issued for, rather than having to re-enter credentials each time they use the resource protected with that same token.

The user retains access as long as the token remains valid. Once the user logs out or quits an application, the token is invalidated. In other words, the auth token cookie we use is a "session cookie" which is automatically deleted as soon as you log out from iCare CLINIC.

3 WHO DO WE SHARE YOUR PERSONAL INFORMATION WITH, AND WHY?

We may disclose personal information about you with our service providers for the purposes described in this Policy where permitted by law.

The third parties we may share your personal information with include:

Your information may only be transferred to another country for processing as permitted and in compliance with applicable law.

4 WHERE DO WE KEEP YOUR PERSONAL INFORMATION AND HOW LONG DO WE KEEP IT?

We store personal information about you on computer systems operated by us or our service providers. We will maintain personal information about you for as long as necessary in connection with both our and your legal rights and obligations for the purposes for which it was collected, to defend or advance legal claims, or as otherwise required by applicable laws and regulations.

5 HOW IS MY PERSONAL INFORMATION SECURED?

We maintain physical, technological and administrative safeguards to protect your personal information and prevent unauthorized or accidental use, access, or loss. We limit access to personal information about you to those who have a business need for such access. We have policies in place that regulate how our employees and contractors handle information about you.
